

Airl Radio Station faithfully serves me as a resident of the local community. I believe that people best serve others when they have a cheerful attitude and a positive perspective of life. Good citizens in a community should embrace the responsibility of looking after one another and helping each other. I listen to Airl everyday before and after I go to school, as do many of my friends. The powerful lyrics on Airl's many songs encourage us to show love and compassion to those around us, and helps us to maintain the cheerful atmosphere that marks our community and our school. If Airl were to be displaced by an LPFM broadcaster providing other programming, we would not receive the powerful encouragement Airl provides us, and for many of us, our optimism and interest in the community would fall apart. The awesome service Airl serves reaches out to so many teenagers and summons us to follow their examples of service to people of all backgrounds and races. Let's not stop the source of a strong, affirmative influence in our community.
